1. General/Général 40
2. National Historic Sites/Lieux historiques nationaux 40
3. National Parks/Parcs nationaux 41

PREFACE

The purpose of this reference list is to provide access to reports from socio-economic surveys produced for Canadian Parks Service (CPS) facilities during the period 1960 to the present. For the most part, the list contains references to reports that have resulted from the work of socio-economic units in relation to on-going park use data collection, park visitor surveys, marketing studies and evaluation projects. Some reports from other sources have also been included when the reports are compiled from CPS park-use data and are relevant analyses of the public use of CPS facilities and services.

Almost all the documents noted on this list are on file at the Socio-Economic Branch and are identified with the designation "OOEPSE". Many documents are also available at the Chaudière Branch of the Departmental Library. They are identified with the designation "OOPAC". The file location of each document is noted at the end of the reference in the following manner:

PRÉAMBULE

La présente bibliographie a pour but de donner accès aux rapports des enquêtes socio-économiques rédigé pour les installations du Service canadien des parc (SCP) au cours de la période 1960 au présent. Dans l'ensemble, cette liste renvoie à des rapports résultant du travail d'unités socio-économiques: collectes permanentes de données sur la fréquentation des parcs, enquêtes auprès des visiteurs des parcs, études de marketing et projets d'évaluation. Certains rapports provenant d'autres sources s'y trouvent aussi inclus quand ces derniers se composent de données sur la fréquentation des parcs provenant du SCP et constituent des analyses pertinentes de l'utilisation que fait le public des installations et des services du SCP.

Presque tous les documents de la présente bibliographie se trouvent au fichier de la Direction socio-économique sous la désignation "OOEPSE". De nombreux documents se trouvent aussi à la succursale des Terrasses de la Chaudière de la Bibliothèque du Ministère. On les reconnaît au code "OOPAC". Pour chaque document, l'endroit où se trouve le dossier est noté à la fin de la référence de la façon suivante:

Fiander-Good Associates, Final Report, Kouchibouguac National Park Winter Visitor Survey: Data Processing and Analysis, July 1986, Atlantic Region, Environment Canada - Parks (OOEPSE: 2046127G, OOPAC: FC2464.K6 K685).

A. GENERAL/GÉNÉRAL

Butler, Research Associates Inc., Analyse qualitative de quatre publications touristiques consacrées aux parcs historiques nationaux: Rapport final, septembre 1987, Direction de la gestion des programmes, Environnement Canada - Parcs, 60 pages plus annexes (OOEPSE: 2053780D, OOPAC: FC 215 Q3414).

Butler, Research Associates Inc., A Qualitative Evaluation of Proposed Designs for Historic Sites Publications: Final Report, September 1987, Program Management Directorate, Environment Canada - Parks, 60 pages plus appendices (OOEPSE: 2053781F, OOPAC: FC 215 Q3413).

Canadian Parks Service: Overview and Statistics on Visitor Participation 1987-1988, January 1989, Socio-Economic Branch, Canadian Parks Service, 52 pages (OOEPSE: 2060428C, OOPAC: FC 215 C26).
